Professional Summary

Entry-level Full Stack Web Developer with a Bachelor's degree in Computer Science and Engineering and hands-on experience building responsive web applications. Skilled in JavaScript, TypeScript, React, Next.js, Node.js, Express.js, MongoDB, and modern frontend technologies. Experienced in developing REST APIs, responsive interfaces, reusable components, and full-stack applications. Strong interest in learning modern web technologies and contributing to real-world software projects.

Education

North South University

Bachelor of Science in Computer Science & Engineering

Dhaka, Bangladesh

Graduated: December 2024

- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Web Development, Object-Oriented Programming, Software Engineering

Technical Skills

Languages: JavaScript, TypeScript, Java, C++, C#, SQL

Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL, Firebase

Tools & Platforms: Git, GitHub, VS Code, Vercel, npm

Concepts: Responsive Design, Component-Based Architecture, API Integration, CRUD Operations, Authentication

Projects

FitLog – Workout Library | *Next.js, TypeScript, Tailwind CSS*

- Developed a responsive workout library application using Next.js, TypeScript, Tailwind CSS, and REST API integration.
- Implemented workout browsing, dynamic workout detail pages, saved workouts, and a personalized daily workout plan.
- Built reusable React components and client-side state management for managing workout plans and saved exercises.
- Integrated API data fetching and implemented responsive layouts for mobile, tablet, and desktop devices.
- **Technologies:** Next.js, React, TypeScript, Tailwind CSS, DaisyUI, REST API, Vercel
- **Live Demo:** workout-assignment-6-ldufg8q9s-nahid13.vercel.app

Healthcare Management System | *Full Stack Web Application*

- Designed and developed a web-based healthcare management system for patient registration, appointment scheduling, medical records, prescription management, and doctor-patient communication.
- Implemented role-based access and authentication concepts to provide secure access for different types of users.
- Developed responsive interfaces and backend services to support healthcare management workflows.
- Explored AI-powered features to improve healthcare services, efficiency, and data-driven decision-making.
- **Technologies:** HTML5, CSS3, JavaScript, Node.js, Express.js

DevConf – Conference & Event Management Website | *HTML, CSS, JavaScript*

- Designed and developed a modern responsive conference and event management website with sections for speakers, event information, schedules, registration, and contact information.
- Implemented responsive layouts using CSS Grid and modern CSS techniques without relying on frontend frameworks.
- Focused on clean UI design, structured layouts, accessibility, and responsive behavior across different screen sizes.
- **GitHub:** github.com/Nahid-Akand/B14-A01-DevConf-20261

Scrum Methodology – Thesis | *Systematic Literature Review*

- Conducted a systematic literature review of the Scrum framework, focusing on its principles, implementation practices, benefits, challenges, and impact on software development projects.
- Collaborated with a team to analyze research findings and document practices related to Agile software development.
- **GitHub:** github.com/Nahid-Akand/My-thesis-of-scrum-mathodology

Achievements & Certifications

Data Analytics with AI – Sololearn, 2025

Introduction to Java – Sololearn, 2026

Introduction to HTML – Sololearn, 2026

Extracurricular Activities

Member – NSU CSE Club

Successfully participated in organizing a blood donation campaign.
